PACKAGE-1: CIVIL & STRUCTURAL ENGINEERING CHARTER

9 Residential Towers (G+10/11) + Multi-Level Contiguous Podium Deck

Structural Framed System: Earthquake-Resistant RCC Space Frame compliant with IS 13920:2016
Seismic Classification: Seismic Zone III (Zone Factor Z = 0.16, Importance Factor I = 1.20, SMRF R = 5.0)
Concrete Specification: Minimum Grade M-30 for Columns/Shear Walls; M-25 for Beams and Slabs
Steel Specification: High-Yield Strength Deformed (HYSD) Fe 500D / Fe 550D TMT Reinforcement
Foundation: Bored Cast-in-Situ Heavy-Duty RCC Piles socketed into sound basalt rock strata
Masonry: 200mm Outer / 100mm-150mm Inner Autoclaved Aerated Concrete (AAC) Blocks with Polymer Adhesive
Waterproofing: Coastal Marine Grade Crystalline Integral Additives + Dual-Coat Polyurethane (PU) Podium Deck
Durability Design: Concrete cover and mix design compliant with coastal environmental exposure norms
